IIFL PRIVATE WEALTH MANAGEMENT (DUBAI) LIMITED

REPORT OF THE BOARD OF DIRECTORS

The Directors of IIFL Private Wealth Management (Dubai) Limited ("the Company") have pleasure in presenting their report and the audited financial statements of the Company for the year ended 31 March 2022.

Results of the company

The detailed results of the Company are set out in the statement of comprehensive income and related notes.

Responsibility of management and the Board of Directors for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and in compliance with the applicable provisions of the Dubai Financial Services Authority Rule Book, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

We are also responsible for keeping proper financial records in line with reasonable steps to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

Approval of the financial statements

We, as directors of the Company, have approved these financial statements.

Independent Auditor

The independent auditor of the Company, *RSM Dahman Auditors*, have indicated their willingness to continue in office.

Signed on behalf of the board of directors

A handwritten signature in black ink, appearing to read 'Santosh', written over a horizontal line.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDER OF IIFL PRIVATE WEALTH MANAGEMENT (DUBAI) LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of IIFL Private Wealth Management (Dubai) Limited ("the Company"), which comprise the statement of financial position as at 31 March 2022, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 March 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence:

We are independent of the Company in accordance with the International Ethics Standard Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the ethical requirements of the Dubai Financial Services Authority (the "DFSA") that are relevant to our audit of the financial statements in the United Arab Emirates. We have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Responsibilities of Management and the Board of Directors for the Financial Statements

Management is responsible for the preparation of the financial statements that give a true and fair view in accordance with International Financial Reporting Standards and their preparation in compliance with the applicable provisions of the DFSA Rule Book, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDER OF IIFL PRIVATE WEALTH MANAGEMENT (DUBAI) LIMITED *(continued)*...

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements. If such disclosures are inadequate, we are required to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**INDEPENDENT AUDITOR'S REPORT
TO THE SHAREHOLDERS OF IIFL PRIVATE WEALTH MANAGEMENT (DUBAI) LIMITED (continued)...**

Report on Other Legal and Regulatory Requirements

As required by the applicable provisions of the DFSA Rule Book, we report that the financial statements have been properly prepared in accordance with the applicable requirements of the DFSA.

1 General information

IIFL Private Wealth Management (Dubai) Limited (“the Company”) was incorporated as a private company limited by shares in the Dubai International Financial Centre (“DIFC”) on 28 September 2010. The Company is registered under the Companies Law, DIFC Law No. (5) of 2018, as amended with the Commercial License Number CL0973. On 31 October 2010, the Company was granted the Dubai Financial Services Authority (“DFSA”) license with the DFSA Firm Reference No. F001202.

The Company has been granted a prudential “Category 4” license by the DFSA and is engaged in the business of:

- Arranging Deals in Investments
- Advising on Financial Products

The registered address of the Company is Unit GV-00-10-08-OF-11, Level 8, Gate Village Building 10, Dubai International Financial Centre, Dubai, 115064, United Arab Emirates.

2 Basis of preparation

Statement of compliance

These financial statements have been prepared in accordance with:

- International Financial Reporting Standards (IFRSs) issued and adopted by the International Accounting Standards Board (“IASB”) and the interpretations issued by the International Financial Reporting Interpretation Committee of the IASB enforce at 31 March 2022; and
- the applicable requirements of the DFSA Rule Book.

Accounting convention

These financial statements have been prepared under the historical cost convention.

Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates. These financial statements are presented in UAE Dirhams, which is the Company’s functional currency and presentation currency.

Changes in accounting policies and disclosures

New and amended standards, and interpretations effective for the first time and applied:

The following standards and amendments, which became effective for annual periods beginning on or after 1 January 2021, have been adopted in these financial statements. The application of these standards and amendments, except where stated, have not had any material impact on the amounts reported for the current and prior periods.

Interest Rate Benchmark Reform - Phase 2: Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16

The amendments provide temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR).

The amendments include the following practical expedients:

- A practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest.
- Permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued.
- Provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component.

These amendments had no impact on the financial statements of the Company. The Company intends to use the practical expedients in future periods if they become applicable.

2 Basis of preparation *(continued)*

Changes in accounting policies and disclosures *(continued)*

New and amended standards, and interpretations effective for the first time and applied: (continued)

Covid-19-Related Rent Concessions beyond 30 June 2021 Amendments to IFRS 16

On 28 May 2020, the IASB issued Covid-19-Related Rent Concessions - amendment to IFRS 16 Leases. The amendments provide relief to lessees from applying IFRS 16 guidance on lease modification accounting for rent concessions arising as a direct consequence of the Covid-19 pandemic. As a practical expedient, a lessee may elect not to assess whether a Covid-19 related rent concession from a lessor is a lease modification. A lessee that makes this election accounts for any change in lease payments resulting from the Covid-19 related rent concession the same way it would account for the change under IFRS 16, if the change were not a lease modification.

The amendment was intended to apply until 30 June 2021, but as the impact of the Covid-19 pandemic is continuing, on 31 March 2021, the IASB extended the period of application of the practical expedient to 30 June 2022. The amendment applies to annual reporting periods beginning on or after 1 April 2021. However, the Company has not received Covid-19-related rent concessions, but plans to apply the practical expedient if it becomes applicable within allowed period of application.

New and amended standards, and interpretations issued but not yet effective and not early adopted:

The Company has not applied the following new or amended pronouncements that have been issued by the IASB but are not yet effective for the financial year beginning on 1 April 2020.

The management anticipates that the new standards and amendments will be adopted in the Company financial statements when they become effective. The Company has assessed, where practicable, the potential effect of all these new standards and amendments that will be effective in future periods.

	<i>Effective date</i>
• Phase 2 amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 – interest rate benchmark (IBOR) reform	1 January 2021
• Narrow-scope amendments to IFRS 3, IAS 16 and IAS 37	1 January 2022
• Annual Improvements to IFRS Standards 2018–2020	1 January 2022
• Amendments to IAS 1, Presentation of financial statements on classification of liabilities	1 January 2023
• IFRS 17 Insurance Contracts	1 January 2023
• Amendments to IFRS 17 Insurance Contracts	1 January 2023
• Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2	1 January 2023
• Definition of Accounting Estimates - Amendments to IAS 8	1 January 2023
• Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures (2011)	Optional

Topics covered by these standards/interpretations are either not relevant for the preparations of this set of IFRS financial statements or the Company does not foresee that the application of these standards/interpretations will result in a significant impact on figures and disclosures on the reporting period they will be adopted except in certain cases where it is not practicable to provide a reasonable estimate of the effect until a detailed review has been completed.

3 Summary of significant accounting policies

A summary of the significant accounting policies, which have been applied consistently in the preparation of these financial statements, is set out below.

Current versus non-current classification

The Company presents assets and liabilities in statement of financial position based on current or non-current classification. An asset is classified as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Equipment

Equipment is stated at cost less accumulated depreciation and impairment losses, if any. Cost consists of purchase cost, together with any incidental expenses of acquisition.

Subsequent costs are included in the asset's carrying amount or recognised as an asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably. Repairs and maintenance are charged to the statement of comprehensive income during the period in which they are incurred.

Depreciation on all other fixed assets is provided on a straight-line basis and charged to statement of comprehensive income to write off the depreciable amount of each asset over its estimated useful life at the rates specified in Note 5. Depreciation on addition in equipment is charged from the date when the asset becomes available for use up to the date of its disposal.

An item of equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains and losses on disposal of an item of equipment are determined by comparing the proceeds from disposal with the carrying amount of equipment and are recognised net within other income in statement of comprehensive income.

The Company reviews the useful life and residual value of equipment on a regular basis. Any change in estimates in future years might affect the carrying amounts of the respective items of equipment with a corresponding effect on depreciation charge and impairment.

Right-of-use asset

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

3 Summary of significant accounting policies *(continued)*

Right-of-use asset *(continued)*

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the company expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of-use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

For short-term leases with terms of 12 months or less and leases of low-value assets, the Company has elected not to recognise a right-of-use asset and corresponding lease liability. Lease payments on these assets are expensed to profit or loss as incurred.

Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Financial instruments

Classification of financial assets:

Financial assets are classified, at initial recognition as measured at (i) amortised cost; (ii) Fair Value through Other Comprehensive Income (FVOCI); or (iii) Fair Value through Profit or Loss (FVTPL). At 31 March 2022 and 2021, the Company held financial assets under the category of amortised cost only.

- Financial assets at amortised cost:

The Company measures financial assets at amortised cost if: i) the financial asset is held within a business model with the objective to hold the financial assets in order to collect contractual cash flows; and ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognised in the statement of comprehensive income when the asset is derecognized, modified and impaired.

Derecognition of financial assets:

A financial asset is derecognised when (i) the rights to receive cash flows from the asset have expired; and (ii) the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets:

IFRS 9 replaced the incurred loss model followed under IAS 39 with a forward-looking expected credit loss (ECL) model. For trade receivables, the Company has established a provision matrix that is based on its historical credit loss experience basis which provision for ECL is made.

Classification of financial liabilities:

Financial liabilities are classified, at initial recognition as measured at *(i) financial liabilities at fair value through profit or loss; or (ii) at amortised cost; or (iii) as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value, net of directly attributable transaction costs, wherever applicable.

3 Summary of significant accounting policies *(continued)*

Financial instruments *(continued)*

Derecognition of financial liabilities:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender with substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Fair value measurement:

The Company measures financial instruments, such as investment in securities and hedges, at fair value at each statement of financial position date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When measuring the fair value of an asset or a liability, the Company uses market observable data to the extent possible. If the fair value of an asset or a liability is not directly observable, it is estimated by the Company using valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. Inputs used are consistent with the characteristics of the asset / liability that market participants would take into account.

Fair values are categorised into different levels in a fair value hierarchy based on the degree to which the inputs to the measurement are observable and the significance of the inputs to the fair value measurement in its entirety:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Transfers between levels of the fair value hierarchy are recognised by the Company at the end of the reporting year during which the change occurred.

Bank balances

Cash and cash equivalents comprise cash in hand and cash with banks in current accounts.

Employees' end of service benefits

The Company provides end of service benefits to its expatriate employees. The entitlement to these benefits is usually based upon the employees' final salary and length of service, subject to the completion of a minimum service period. The DIFC Employment Amendment Law, which came into force on 14 January 2020, amends DIFC Law No. 2 of 2019 (the DIFC Employment Law) with the principal purpose of replacing the existing end-of-service benefits regime with the DIFC Employment Workplace Saving (DEWS) plan or a qualified alternative scheme (QAS). Effective, 1 February 2020, the Company makes a monthly contribution relating to employees end of service benefits to DEWS scheme.

3 Summary of significant accounting policies *(continued)*

Lease liability

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liability is measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of-use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Revenue from contracts with customers

The Company recognises revenue from contracts with customers based on a five-step model as set out in 'IFRS 15 – Revenue from Contracts with Customers' as follows:

- Step 1. Identify the contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and set out the criteria for every contract that must be met.
- Step 2. Identify the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer to the customer either a good or service (or a bundle of goods or services) that is distinct; or a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.
- Step 3. Determine the transaction price: The transaction price is the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.
- Step 4. Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.
- Step 5. Recognise revenue when (or as) the entity satisfies a performance obligation

Business support income:

Revenue from a contract to provide business support services is recognised at point in time as the services are rendered based on a cost plus arm's length mark-up basis.

Other income:

Other revenue is recognised when it is received or when the right to receive payment is established.

3 Summary of significant accounting policies *(continued)*

Foreign currency transactions and translation

Transactions in foreign currency are accounted for at the exchange rates prevailing on the date of transactions. All monetary assets and liabilities denominated in foreign currencies at the year-end are translated at exchange rates prevailing at the balance sheet date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using exchange rate at the date of transaction. Exchange differences are included in the statement of comprehensive income for the year.

4 Significant accounting judgements, estimates and assumptions

The preparation of these financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingencies and commitments at the reporting date. Uncertainty about these estimates and assumptions could result in outcomes that require a material adjustment to the carrying amount of the assets or liabilities affected in future periods.

Estimates and their underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

Below are the key accounting estimates and judgements that have a significant impact on the financial statements:

Useful lives of furniture and equipment:

The Company's management determines the estimated useful lives of its furniture and equipment for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation charge would be adjusted where the management believes the useful lives differ from previous estimates.

Financial Instruments - Macroeconomic factors and forward-looking information:

IFRS 9 requires an unbiased and probability weighted estimate of credit losses by evaluating a range of possible outcomes that incorporates forecasts of future economic conditions. Macroeconomic factors and forward-looking information are required to be incorporated into the measurement of ECL as well as the determination of whether there has been a significant increase in credit risk since inception. Measurement of ECLs at each reporting period should reflect reasonable and supportable information at the reporting date about past events, current conditions and forecasts of future economic conditions.

Revenue:

- *Satisfaction of performance obligations:* The Company assesses each of its contracts with customers to determine whether performance obligations are satisfied over a period of time or at a single point in time in order to determine the appropriate method of revenue recognition.
- *Determination of transaction price:* The Company determines the transaction price in respect of each of its contracts with customers. In doing so, the Company assesses the impact of any variable consideration, any significant financing component and any non-cash consideration included in the contract.
- *Allocation of transaction price to performance obligation in contracts with customers:* A transaction price is allocated to each performance obligation on the basis of their stand-alone selling prices. The Company estimates the standalone selling price as a price at which a promised service is sold separately to a customer in the market.
- *Transfer of control in contracts with customer:* Where the Company determines that performance obligations are satisfied at a single point in time, revenue is recognized when control over the asset is transferred to the customer. Significant judgement is required to evaluate when 'control' is transferred to the customer.

4 Significant accounting judgements, estimates and assumptions *(continued)*

Lease term:

The lease term is a significant component in the measurement of both the right-of-use asset and lease liability. Judgement is exercised in determining whether there is reasonable certainty that an option to extend the lease or purchase the underlying asset will be exercised, or an option to terminate the lease will not be exercised, when ascertaining the periods to be included in the lease term. In determining the lease term, all facts and circumstances that create an economical incentive to exercise an extension option, or not to exercise a termination option, are considered at the lease commencement date. Factors considered may include the importance of the asset to the company's operations; comparison of terms and conditions to prevailing market rates; incurrence of significant penalties; existence of significant leasehold improvements; and the costs and disruption to replace the asset. The company reassesses whether it is reasonably certain to exercise an extension option, or not exercise a termination option, if there is a significant event or significant change in circumstances.

Incremental borrowing rate:

Where the interest rate implicit in a lease cannot be readily determined, an incremental borrowing rate is estimated to discount future lease payments to measure the present value of the lease liability at the lease commencement date. Such a rate is based on what the company estimates it would have to pay a third party to borrow the funds necessary to obtain an asset of a similar value to the right-of-use asset, with similar terms, security and economic environment.

Coronavirus (COVID-19) pandemic:

Judgement has been exercised in considering the impact that the Coronavirus (COVID-19) pandemic has had, or may have, on the Company based on known information. This consideration extends to the nature of the products and services offered, customers, supply chain, staffing and geographic regions in which the Company operates. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the Company unfavourably as at the reporting date or subsequently as a result of the Coronavirus (COVID-19) pandemic.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2022

6 Leases as lessee (IFRS 16)

The Company leases office premises. The property lease started on 15 October 2019. The initial lease term was for the period of two (2) years from the lease commencement date, with an option to extend the lease after the expiration date. The Company has continuously opted to renew the lease upon expiry date and the current lease contract will expire on 14 October 2022. Consequently, the Company recognised Right-of-Use Asset and Lease Liability in respect to the above lease agreement.

i. Right-of-use assets

Right-of-use assets related to leased property are presented on the face of the statement of financial position.

Less: Deductions from (T2) Capital	-	-
Tier 2 Capital	-	-
Capital resources (Tier 1 + Tier 2 Capital)	4,810,108	4,684,394

Capital requirements

Capital requirements applicable to the Company in accordance with PIB Rule 3.5 of the DFSA Prudential Rule book is the highest of:

- the applicable Base Capital Requirement; or
- the Expenditure Based Capital Minimum.

At the reporting date, the applicable Base Capital Requirement and Expenditure Based Capital Minimum are as follows:

	31 March 2022	31 March 2021
	AED	AED
Base capital requirement (USD 10,000)	36,500	36,500
Expenditure based capital minimum - as notified to the firm (USD 100,000)	365,000	365,000
Expenditure based capital minimum - based on actual expenses	170,411	155,623

The Company is in compliance with minimum capital adequacy requirement as at 31 March 2022 and 2021.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2022

10 Provision for employees' end-of-service benefits

	31 March 2022	31 March 2021
	AED	AED
Opening balance	185,551	185,551
Adjustment during the year	18,554	-
	204,105	185,551

*** The provision for employees' end-of-service benefits provided during the year is calculated up to 31 January 2020.*

The DIFC Employment Amendment Law, which came into force on 14 January 2020, amends DIFC Law No. 2 of 2019 (the DIFC Employment Law) with the principal purpose of replacing the existing end-of-service benefits regime with the DIFC Employment Workplace Saving (DEWS) plan or a qualified alternative scheme (QAS).

On the above, the Company is required to make mandatory monthly contribution to DIFC's default Qualifying Scheme or an alternative regulated scheme, as opposed to settling a lump sum "gratuity payment" to an employee at the end of their employment. Effective from 1 February 2020, the law requires the Company to make the first contribution to the new scheme. It is understood that under the new requirements, the company will have no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay employee benefits.

Moreover, under the new scheme, the employer has the option to transfer an employee's gratuity entitlement accrued up to 31 January 2020 linked to past service, into the DEWS plan. However, the Company opted to retain this as their liability until they leave their services.

11 Trade and other payables

	31 March 2022	31 March 2021
	AED	AED
Trade payables	2,625	2,625
Professional fees payable	18,362	17,440
Accrued expenses	22,872	5,730
	43,859	25,795

12 Related party disclosures

Related parties represent the shareholder, affiliated companies, directors and key management personnel of the Company, and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Company's management.

Transactions with related parties included in the statement of comprehensive income are as follows:

	31 March 2022	31 March 2021
	AED	AED
Revenue from contract with a customer (Note 12.1)	2,258,488	1,533,684

12 Related party disclosures *(continued)*

12.1 Business support services

Pursuant to the Service Agreement (“the Agreement”) dated 1 April 2019, the Company agreed with IIFL Capital Pte. Ltd, an entity incorporated under the Laws of Singapore (“an affiliated entity”) to provide the services in accordance with the Agreement. In lieu of the services, the Company is entitled to charge the fee which shall not exceed USD 100,000 per quarter or such other amount which is in compliance with domestic transfer pricing guidelines and mutually agreed in writing from time to time between the Company and an affiliated entity.

Effective 1 January 2020, the Company and an affiliated entity signed an addendum to the Agreement dated 1 April 2019. In accordance with this addendum, the Company is entitled to charge the fee which shall not exceed USD 240,000 per quarter or such other amount which is in compliance with domestic transfer pricing guidelines and mutually agreed in writing from time to time between the Company and an affiliated entity.

Effective 1 April 2020, the Company and an affiliated entity signed an updated addendum to the Agreement dated 1 April 2019. In accordance with this addendum, the Company will invoice to an affiliated entity on a cost plus arm’s length mark-up basis. The costs for such purposes would include direct and indirect costs incurred for carrying out such activities as may be mutually agreed. The arm’s length mark-up referred above would be 6% for year ended 31 March 2022 and 2021 on the costs which is based on an independent benchmarking analysis. This arm’s length margin may be revised as may be mutually agreed between the Company and an affiliated entity from time to time having regard to the prevailing economic and other conditions and based on the transfer pricing analysis.

Revenues generated from the services provided are recognised at point in time.

Balances with related parties included in the statement of financial position are as follows:

	31-Mar-22	31-Mar-22	31-Mar-21	31-Mar-21
	Receivables	Payables	Receivables	Payables

Director	-	242,119	-	-
	729,480	242,119	1,368,421	-

Terms and conditions of transactions with related parties

Outstanding balances at the year-end arose in the normal course of business and are unsecured, interest free and repayable upon demand from lender. There have been no guarantees provided or received for any related party receivables or payables. During the current and previous year, the Company has not recorded any impairment of receivables relating to the amounts owed by related parties. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

Compensation of key management personnel

The remuneration of key management personnel during the year was as follows:

	31 March 2022	31 March 2021
	AED	AED
Directors' remuneration (Note 13)	1,038,645	598,703
Directors' bonus (Note 13)	242,609	-

14 Financial assets and liabilities

The financial assets of the Company comprise amounts due from a related party, refundable deposits, employee loan cash and cash equivalents. The financial liabilities of the Company comprise lease liability, amounts due to a related party, trade and other payables. The accounting policies for financial assets and liabilities are set out in Note 3.

The following table summarises the carrying amount of financial assets and financial liabilities recorded at the reporting date:

	31 March 2022	31 March 2021
	AED	AED
Financial assets		
Financial assets at amortised cost	5,115,575	4,733,860
Financial assets at fair value through OCI		
- with recycling of cumulative gain and losses (debt instruments)	-	-
- with no recycling of cumulative gain and losses (equity instruments)	-	-
Financial assets at fair value through profit and loss	-	-
Total financial assets	5,115,575	4,733,860
Financial liabilities		
At fair value through the profit and loss	-	-
Measured at amortized cost:		
- Derivative financial instruments	-	-
- Other financial liabilities	337,306	77,104
Total financial liabilities	337,306	77,104

15 Financial risk management

The Company has exposure to the following risks from its use of financial instruments:

- (a) Market risk;
- (b) Credit risk; and
- (c) Liquidity risk

(a) Market risk

Market risk is the risk that the fair value of the financial instrument may fluctuate as a result of change in market interest rates or the market price due to change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities and liquidity in the market. The Company incurs financial liabilities to manage their market risk.

The Company is exposed to the following market risk:

- (i) Interest rate risk;
- (ii) Currency risk; and
- (iii) Price risk.

The Company's exposure to the above risks is described below:

(i) Interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of financial instrument will fluctuate because of changes in market interest rates. The Company's interest rate exposure mainly arises from employee loan and lease liability. At the reporting date, the interest rate risk profile of the Company's interest-bearing financial instruments is:

	<i>Carrying amount</i>	
	<i>31 March 2022</i>	<i>31 March 2021</i>
	<i>AED</i>	<i>AED</i>
Fixed rate instruments		
<i>Financial assets:</i>		
Employee loan (Note 7)	-	14,225
<i>Financial liabilities:</i>		
Lease liability (Note 6)	51,328	51,309

Fair value sensitivity analysis for fixed rate instruments

The Company is not exposed to variations in the statement of comprehensive income on its fixed rate financial instruments.

(ii) Currency risk:

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions of receivables and payables that exist due to transactions in foreign currencies.

Exposure to currency risk

The Company's significant monetary assets and liabilities are denominated either in AED or in currencies pegged to USD. Thus, the currency risks were not considered to present significant risk for the Company.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2022

15 Financial risk management *(continued)*

(a) Market risk *(continued)*

(iii) Price risk:

Price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market prices (other than those arising from interest rate risk and currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factor affecting all similar financial instruments traded in the market. At the reporting date the company has not exposed to any price risk.

(b) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from amounts due from a related party, deposits, employee loan and bank balances. The carrying amount of the financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	31 March 2022	31 March 2021
	AED	AED
Amounts due from a related party	729,480	1,368,421
Deposits	50,495	50,000
Employee loan	-	14,225
Bank balances	<u>4,335,600</u>	<u>3,301,214</u>
	<u>5,115,575</u>	<u>4,733,860</u>

Amounts due from a related party

Amounts due from a related party relate to transactions arising in the normal course of business with minimal credit risk.

Bank balances

The Company seeks to limit its credit risk with respect to banks by only dealing with reputable banks and with respect to customers by setting credit limits for individual customers and monitoring outstanding receivables.

(c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations from its financial liabilities. Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding.

The Company's objective is to maintain a balance between continuity of funding and flexibility through efficient cash management. The Company limits its liquidity risk by aligning the terms of trade payables with the terms of collection from customers. Further, the shareholder ensures adequate funds are available as and when required.

The following table summarise the maturity profile of financial liabilities based on the remaining period at the end of reporting date to the contractual maturity date. The amounts disclosed are the contractual undiscounted cash flows:

At 31 March 2022

	Carrying amount	Contractual cash flows	Less than 1 year	More than 1 year	Total
	AED	AED	AED	AED	AED
Lease liability	51,328	51,360	51,360	-	51,360
Amounts due to a related party	242,119	242,119	242,119	-	242,119
Trade and other payables	<u>43,859</u>	<u>43,859</u>	<u>43,859</u>	<u>-</u>	<u>43,859</u>
	<u>337,306</u>	<u>337,338</u>	<u>337,338</u>	<u>-</u>	<u>337,338</u>

15 Financial risk management *(continued)*

(c) Liquidity risk

At 31 March 2021

	<i>Carrying amount AED</i>	<i>Contractual cash flow AED</i>	<i>Less than 1 year AED</i>	<i>More than 1 year AED</i>	<i>Total AED</i>
Lease liability	51,309	51,360	51,360	-	51,360
Trade and other payables	25,795	25,795	25,795	-	25,795
	<u>77,104</u>	<u>77,155</u>	<u>77,155</u>	<u>-</u>	<u>77,155</u>

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier or at significant different amounts.

16 Fair value of financial instruments

Financial instruments comprise financial assets and financial liabilities. The financial assets of the Company comprise amounts due from a related party, refundable deposits, employee loan cash and cash equivalents. The financial liabilities of the Company comprise amounts due to a related party, lease liability, trade and other payables.

The fair values of financial assets and financial liabilities of the Company at the reporting date are not materially different from their carrying values largely due to the nature and short-term maturities of financial instruments.

17 Impact of COVID-19 and going concern assumption

The existence of novel coronavirus (COVID-19) was confirmed in early 2020 and thereafter declared by the World Health Organisation (WHO) as a global pandemic. COVID-19 has brought about uncertainties in the global economic environment, causing disruption to business and economic activities. The Company assessed the impact of COVID-19 on going concern, business continuity, control environment, credit risk, impairment of financial assets at amortised cost, liquidity and solvency as explained below:

Going concern:

The Company has performed an assessment on its ability to continue as a going concern considering current economic conditions and all available information about future risks and uncertainties. However, there exists a risk of another wave of coronavirus pandemic and plausible prolongation of its consequential impact on the Company's operation. The Company has prepared projections for its future performance, capital and liquidity. The impact of COVID-19 may continue to evolve, but currently, the projections show that the Company has the required resources to continue in operation as a going concern. As a result, these financial statements have been prepared on a going concern basis.

Business continuity:

The Company has enabled remote connectivity for its employees as part of its business continuity management initiative to ensure that there is no interruption to client servicing and operations. This has resulted in the Company delivering service level commitments to its customers across multiple lines of business.

Control environment:

The Company has developed a robust risk appetite framework and capital thresholds based on the pandemic risk and other related risks. Having considered the impact of COVID-19, the Company reassessed its control environment around fraud and information security to ensure adequate controls are in place and conducts more regular reviews on its counterparties.

17 Impact of COVID-19 and going concern assumption *(continued)*

Credit risk management:

The Company continues to have a robust collection and credit control process. Further enhancement and development to strengthen the processes and credit controls have resulted in an efficient receivable management and reduced the credit cycle. Hence, despite the uncertain economic conditions, the Company continued to have robust collections throughout the year. Also, the measures taken above have contributed to minimise the impact on the impairment provision recognised during the year.

Financial assets at amortised cost:

The Company's financial assets at amortised cost has been assessed using a robust ECL model with updated inputs as of the reporting date and based on the results, the Company had taken adequate provisions for impairment losses. These are not material as at 31 March 2022.

Liquidity risk management:

The liquidity position of the Company remains strong. As the situation continues to develop, the Company will continue to monitor the situation closely and take the necessary actions.
