Sale of Assets to ARCs Rs Crore

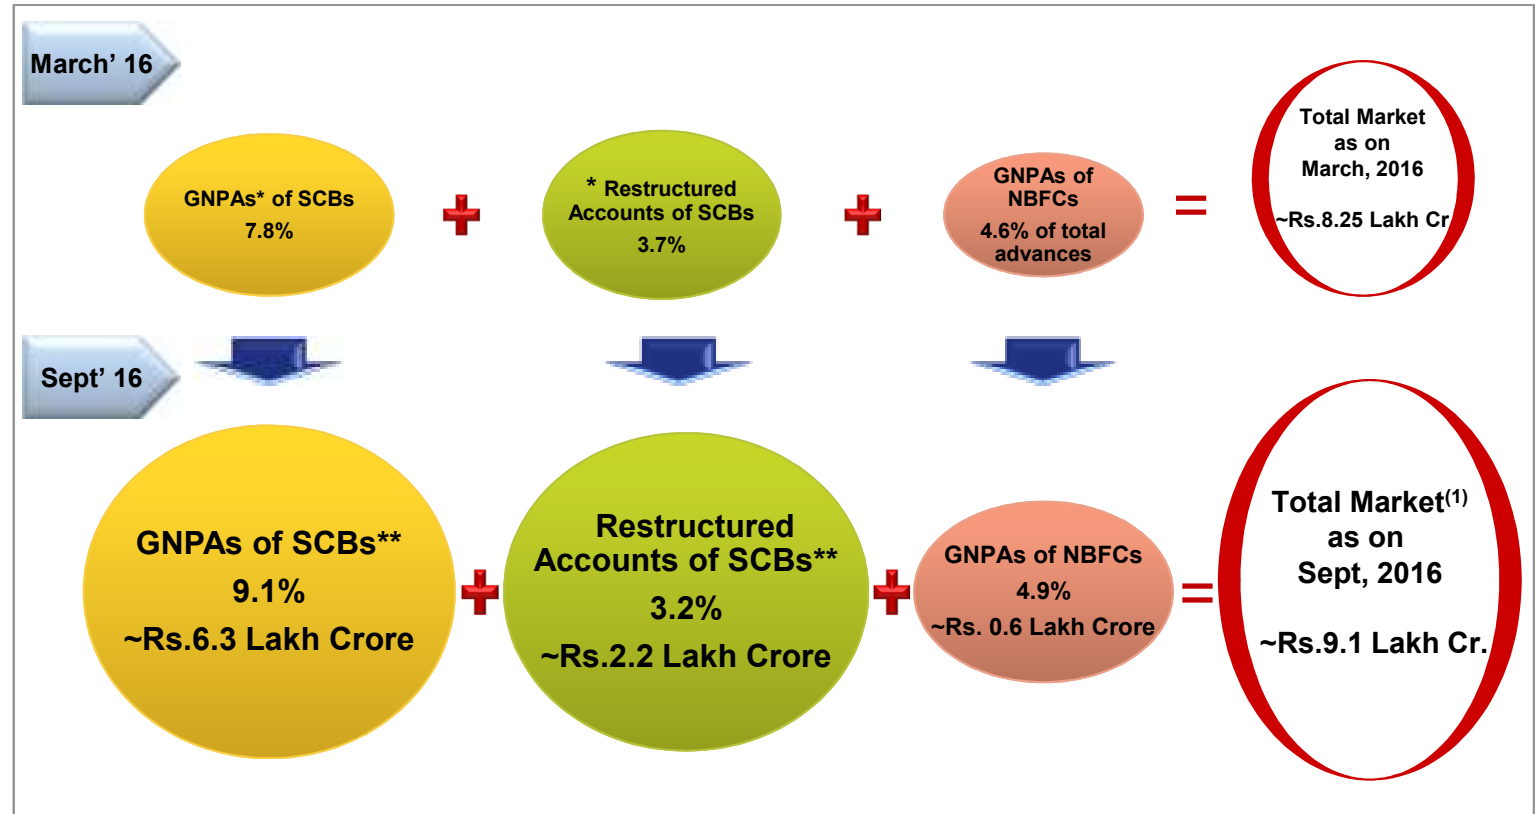

NPA sale to ARCs to increase as Banks attempt to clean books faster aided by Regulatory push

- Typically such cases also pose requirement for additional investments for revival in the form of critical Capex, Working Capital, etc.
- Given the higher capital requirement (Tier I), PSU Banks need to raise vis-à-vis lower capital commitment from GOI, Banks may be forced to sell more NPAs to clean up their asset book

Huge business opportunity in the distressed assets space

The total pie of NPAs have increased since March 2016 even after RBI's Asset Quality Review

Consistent Track Record of Recovery and Redemption

Accounting for JMFARC

Accounting Framework

- Accounting within the framework of Accounting Standards issued by ICAI
- Specific accounting guidelines for ARCs by RBI
- Conservative accounting philosophy

Revenue Recognition

- Main items of revenue - Management Fees, Interest and Upside/ Profit
- The recognition of revenue is as per the terms of the contract of specific trusts
- Management Fees is charged as fixed percentage of the NAV of SRs (lower rating range) or AUM if NAV is not available.
- No management fees charged on only cash investments and income is booked only after 100% of SR redemption
- Upside / Profit recognised on realisation after redemption of SRs

Valuation of Investment in SRs

- SRs are classified as 'available for sale' as per the RBI guidelines
- Valuation of SRs are at cost or realisable value whichever is lower on a global basis for all SRs
- Latest declared NAV is considered as realisable value. NAV is declared every six months.
- Gross impairment on global basis, if any is charged to P&L whereas gross appreciation is ignored

Provision/ write off of receivables and investments

- Unrealised management fees outstanding over 6 months from the end of planning period or 6 months from the date of recognition (after the planning period) is reversed (as per RBI guidelines)
- Similarly expenses recoverable from trust are to be charged to P&L as per RBI guidelines if the same remains unrealised after 6 months from the end of planning period or 6 months from the date of incurrence
- SR investments in Trusts which have exceeded 5 years (or 8 years with 3 year extension by the Board) has to be fully written off as per RBI guidelines

Income and Profitability has inherent lumpiness due to the nature of business
